

Charity Policy

We have decided to support three conservation charities, and a few causes very local to us in our immediate vicinity of west Norfolk.

Our chosen charities

- [Great Bustard Group](#)
- [The Turtle Dove Trust](#)
- [Mt Kenya Wildlife Conservancy](#)

We also work with our local primary school to provide free access to the wildlife reserve for school trips and other educational activities.

Local Charity Events.

Watatunga Wildlife Reserve treats all requests for charitable support with the utmost importance. However, given the ever-increasing amount of correspondence and requests we receive daily, it is simply not possible to fulfil every request & we cannot always guarantee a donation. A member of our team will endeavour to get back to all requests for local fundraising within 15 miles of the reserve. If you have not heard back from us within three weeks, your request has not been successful.

All fundraising requests **must** provide a letter-headed document from the charity you are supporting, which authorises you to raise money on their behalf. The letter-headed document from the charity must have your full name and have the charity number and address on it. Please ensure that the covering letter or email states your full name and address. For any requests, please send an email to info@watatunga.co.uk with all charity and event details as above. Applications without this information will not receive a response.
